CALL TO ACTION EXAMPLES

A **call to action** is a way of leading people to take the next step in your customer journey.

People don't take action unless they're encouraged or challenged to do so. That makes a clear call to action one of the most important aspects of any web page, Facebook post, Instagram caption, or advertisement.

“Your customers are bombarded with more than three thousand commercial messages per day, and unless we are bold in our calls to action, we will be ignored. If our calls to action are soft, they will not be noticed.” ~ Donald Miller

Below are 25 go-to calls to action that customers can't help but click. Begin using them in all of your content today and watch your engagement explode!
